CIS 16
Instructions on Turnitin.com

Remember the internet assignment must be submitted by April 2, 2017 for extra credit. Please write a 250 word essay on either “How the internet has changed business” or “How does business use the internet”. Do not discuss how the consumer uses business websites and do not include e-mail advantages. After you have submitted this “practice paper”, you should find the process easy to submit your research paper. You will submit this extra credit electronically to turnitin only. No copy is submitted to the instructor the extra credit will be graded from the electronic submission.

All students need to add themselves to the correct class by April 2, 2017. If this is not done, there will be a 5 point reduction in the paper’s final grade for the individual. All research papers must be submitted at least one hour before the class’s final. There is a guideline sheet under “Written Paper” hyperlink on the syllabus to explain details of the paper requirements.

You will need to use any of the labs on campus or a home computer with Internet access to begin the process described. If you have any trouble adding yourself to my class, or submitting a paper, please contact me immediately.

To begin the process, open your browser window (get ready to surf the web) Goto http://www.turnitin.com If you need help creating an account or adding yourself to the class use the training information on the site:

You will need the following information to join the class.
(Found on D2L.)
The class ID number is _____________________

The password is ______________________________
