Team Performance Assessment

Failure to submit this assessment on time to turnitin.com will result in a zero (0) on the team research paper for the individual.

Research Project Name: ________________________________

Name (last, first): ________________________________

Your team members’ names (last, first):

1. ________________________________
2. ________________________________
3. ________________________________

Part 1:

A. What were the roles and responsibilities of all team members? Has each team member performed the required work? Briefly summarize the work of each team member (including yourself) and the percentage you assign to their contribution (the total must equal 100%)

B. Briefly assess each team member’s performance. If you had to give each person a score between 0-100, what would it be?

Part 2

Explain the process of completing this project. How were meetings conducted? How were tasks coordinated? What documentation was created? Be specific.
